

AI, LLM & LLM-HypatiaX Blog

A blog dedicated to AI, LLM research, and the LLM-HypatiaX project focusing on generative AI in formula discovery.

Explore the latest advancements in AI and Large Language Models. Our blog focuses on cutting-edge research and applications in the field of AI, with special emphasis on our LLM-HypatiaX project that leverages generative AI for scientific formula discovery.

Latest Posts

Stay updated with the latest articles and posts on **AI**, **LLMs**, and the **LLM-HypatiaX** project.

Exploring the Frontier: My Journey into AI and LLMs

March 14, 2025

Join me on an exploratory journey through the rapidly evolving landscape of AI research, where we'll uncover the potential of large language models to transform how we discover mathematical formulas....
